The Celestial Apollo - Aphrodite Dance ... 2004 – 2012

We of course know about the Baby Boomers, still listening to that good ol' rock and roll, Generation X, the Millennials and more. Stephen Poplin, astrologer and philosopher, has identified the latest group to hit the scene. Greta Thunberg is the star, but there are others.

Join Stephen as he plots the grand cycles, describing the various peer groups and visionaries born at particular times, and for specific missions. Where do you fit in? Are you an emissary?

When? 25 January 2020, Saturday, 2:30 – 6 pm (soon after the intense alignment of Saturn and Pluto in Capricorn)

Bring your astrology charts if you have them, and curious minds of course!
